About Me

Detail-oriented and motivated undergraduate student currently pursuing a Bachelor of Computer Applications. Eager to secure an entry-level position to apply and expand upon my academic knowledge while contributing to real-world projects. Seeking an opportunity to leverage my programming proficiency, and enthusiasm for data-driven decision-making.

Projects

1. CatTin

A website (project) which is a tinder of cats

Link: ns0107.github.io/CatTin_tinder/
